

## WHALES TALES

While it was not such a big water park, it amazed me because it was the first water park I had ever been to. The Water Park was called "Whales Tales" and the slide was called "Twirl-A-Whirl." The water slide was even more enjoyable with my camp friends.

I swirled a whirl through water waves and jumped and bumped down the twisty trail. I soared down the water slide. I spun. I blasted through water's edge. I created a wave of bubbles. I saw a tunnel with no end in my view. I reached the tunnel. The trail was slanted and I sped down the water slide. I went to the side and fell right in. My board is now lost in my mistake. I hit my head and the slide turns into a straight downward fall. Now I know I'm fast. I bang into my board with a splash and I yell, "Yippee." I reach the end with a spatter.

I will always remember "Whales Tales" and all of the fun I had there.
