
Sample Student Essay 1

ONLINE
1.2

Throughout my school career I feel the most valuable course I have taken is keyboarding/computer applications. Not only did I learn to type faster, but I was taught the correct way to type. I also gained general knowledge about the computer and some of its important programs. This course has greatly helped me in my high school career, but I guarantee it will help me in the future.

So far, I have been able to type my essays and reports quickly, which helps with time. Also, I've been able to produce amazing powerpoint presentations for school projects. This all benefits from the keyboarding/computer applications course I took. However, I also feel this course will benefit me in the future. Such as, I will know how to use databases and spreadsheets to help me organize important information, like tax payments or bills. Also, as time progresses computers are used more and more everyday. So, when applying for jobs or college, once they see I've taken a course in keyboarding/computer applications, that will be a positive factor, and might help me get the job or get into that college. I've also heard that college professors like for papers to be typed. This will also decrease my time writing papers in college.

Keyboarding/computer applications has definitely got to be the most valuable course I've taken. Not only has this course been a help to me now, but will also provide much help in the future. I'm very happy that I chose to take this course. After taking the course my knowledge of the computer grew. This is why I feel it is the most valuable.
