## Sample Student Essay 5

The most interesting class that I have ever taken was kindergarten. I chose this because it gave me the foundation that I needed for school.

I loved the years of kindergarten more than anything. Not having a care in the world, being able to nap, and not having severe consequences. I enjoyed having friends, the playground, and coloring. Those were the days when I didn't need a job, didn't have to worry about my grades or getting into college.

The greatest years and the best class I ever took was kindergarten. We take a lot of things for granted and we don't realize it until it's too late. One of the advantages of being older is the independence.
