

## **Group Norms for Science-Writing Groups**

1. Arrive on time with all materials.
2. Participate actively.
3. Listen attentively.
4. Respect other participants' experiences and perspectives.
5. Respect the facilitator's role as leader of the meeting.
6. Stay focused on the guidelines for the meeting.
7. Talk about what you *can* do rather than what you think you cannot accomplish.

Add other norms, if necessary, to meet your group's needs.
