

## One-Day Workshops – Spring 2016:

### Units of Study: Implementing Rigorous, Coherent Reading and Writing Curriculum

These one-day conferences are led by **Lucy Calkins and senior colleagues at the TCRWP** and are designed to help you learn how to use a workshop approach to reading/writing instruction in ways that accelerate your students' progress towards meeting ambitious new global standards.

Participants will:

- Learn about the principles, progressions and methods that undergird a reading or writing workshop curriculum.
- Explore practical ways to teach the higher-level literacy skills that are required by today's ambitious standards.
- Be brought backstage to hear about the research and the discoveries that informed the development of *Units of Study for Teaching Reading, K–5* and *Units of Study in Opinion/Argument, Information, and Narrative Writing, K–8*.
- Grasp ways of supporting kids as they progress up the ladder of text complexity or as they write across text types.
