

Standards for Mathematical Practice for Primary Students

- 1.** I figure out math problems.
I keep trying even when problems are hard.
- 2.** I use numbers and symbols to show math.
- 3.** I can explain how I do math.
I listen to other students tell how they do math.
- 4.** I show my math ideas with blocks, counters, and other materials.
I draw pictures to show my math ideas.
- 5.** I decide which math tool to use.
I know how to use math tools.
- 6.** I try to be exact when I add and subtract.
I use math words when I talk about my math ideas.
- 7.** I think about numbers and patterns to help me find answers.
- 8.** I notice when something happens over and over.
I try to figure out why it keeps happening.
