“Find an Expert” Steps

1. Move to the “dance floor” and wave your paper above your head to signal that you need a partner.

2. When you’ve found a new partner, make sure you can both help fill in a remaining box on each other’s form. If so, then move off the dance floor. Remain standing and discuss.

3. Find a category that applies to your partner, interview them briefly, and write the information in the box.

4. Have your partner neatly sign under your notes. This is the only time your partner will write on your paper.

5. Now let your partner interview you on a topic. Be sure to sign the sheet after that interview is completed.

6. When you’re both finished, thank each other and return to the “dance floor” for new partners. You must have a different partner for each topic box.
