Writing academic essays in college often seems mysterious to students who do not yet understand the process of developing an idea into a finished piece of reasoned prose. **Writing Your Way Through College** demystifies that process and enables teachers to help students “invent the university” as they reinvent themselves as proficient writers and rhetorical problem solvers.

**Writing Your Way Through College** offers instructors a set of careful lessons that draw on current disciplinary knowledge in composition and rhetoric. Sheryl Fontaine and Cherryl Smith provide a classroom-centered text that guides students through progressively more complex, evidence-based writing.

In a concise, readable format, **Writing Your Way Through College** offers insights into how individuals negotiate language communities so that students can better master the conventions and rhetorical characteristics of academic writing.
