Grades 6–8
The Math Process Standards Series
Edited by Susan O’Connell

**Problem Solving**  
Joy Bronston Schackow and Susan O’Connell  
2008 / 176pp + CD / $25.00  

**Communication**  
Susan O’Connell and Suzanne G. Croskey  
2008 / 176pp + CD / $25.00  
978-0-325-01732-7 / 0-325-01732-8

**Reasoning and Proof**  
Denisse R. Thompson and Karren Schultz-Ferrell  
2008 / 160pp + CD / $25.00  
978-0-325-01733-4 / 0-325-01733-6

**Representation**  
Kimberly Witeck and Bonnie Ennis  
2008 / 160pp + CD / $25.00  
978-0-325-01387-9 / 0-325-01387-X

**Connections**  
Cynthia W. Langrall, Sherry L. Meier, Edward S. Mooney and Honi J. Bamberger  
2008 / 128pp + CD / $25.00  
978-0-325-01240-7 / 0-325-01240-7

---

Each title contains powerful tools to help you get started:

- plans for lessons that help students internalize each standard
- advice, ideas, and teaching tips that show you ways to make the standards a central part of your instruction and your students’ learning
- assessment strategies to monitor student progress with each standard
- a CD-ROM with activities customizable to match your lessons
- a correlation guide that helps you match each aspect of mathematical content to the processes it utilizes.

The CD-ROM that accompanies each title in The Math Process Standards Series includes tools to help you take what you learn from the book and turn it into classroom practice right away. Each is filled with activities that refer to specific types of problems detailed in the book, problems that target the concepts, knowledge, and applications necessary to internalize each process standard and make it part of students’ mathematical repertoire. Best of all, the activities on the CD-ROM are fully customizable, allowing you to adjust them to the particulars of your math teaching, your students, and your curriculum.
NCTM’s Process Standards were designed to support teaching that helps children develop independent, effective mathematical thinking—to help students go beyond math content and understand how math works and why. The Heinemann Math Process Standards Series gives teachers the opportunity to explore each standard in depth.

Introduction to Problem Solving
Second Edition
Susan O’Connell
2007 / 208pp + CD / $25.00
978-0-325-00970-4 / 0-325-00970-8

Introduction to Reasoning and Proof
Karren Schultz-Ferrell, Brenda Hammond, and Josepha Robles
2007 / 160pp + CD / $25.00
978-0-325-01033-5 / 0-325-01033-1

Introduction to Communication
Susan O’Connell
2007 / 200pp + CD / $25.00
978-0-325-01106-6 / 0-325-01106-0

Introduction to Connections
Honi J. Bamberger and Christine Oberdorf
2007 / 160pp + CD / $25.00
978-0-325-00999-5 / 0-325-00999-6

Introduction to Representation
Bonnie Ennis and Kimberly Witeck
2007 / 160pp + CD / $25.00
978-0-325-01104-2 / 0-325-01104-4

Now I Get It
Strategies for Building Confident and Competent Mathematicians, K–6
Good teaching is the critical factor that helps students “get” math. Thanks to Susan O’Connell, you can provide top-notch mathematics instruction—even if you’ve never felt comfortable teaching it before.
