You’ll flip over Lester and Reba’s
newest approach to literacy instruction!

“The idea of a flip is simple. Heads you read, tails you write. On one side, we think about what is expected of the reader. We focus on what he must do to make meaning for himself. On the other side, we think about what the writer had to do to set up the reader.”

Lester and Reba explore the mutually supportive roles of reading and writing, and make them visible through the idea of “flipsides;” how a reader’s insights can be turned around to provide insights into his own writing, and vice versa. Chock full of sample lessons, student samples, and recommended texts for maximizing the flipped concept, Writers ARE Readers will give you fresh ideas for turning reading strategies into writing opportunities all year long!
